ABOUT TMS

TMS is the heart of TPS and it's aiming for changing behaviors to lean management implementation. It involves applying what you've learned in the workplace and changing your organization.

TMS can be adapted by every industry, It is a style of management that revitalizes the workplace and produce results. It nurtures people potential and add value to their capabilities and performance.

OUR APPROACH:

- The True Nature of Workplace Revitalization Actions (WRAs) - Autonomous Management**
- The Methodology of Workplace Revitalization - Learning The Principles of Revitalization through Methodology**
- Introducing WRAs and Organization Creation - Approach to improve company performance & increase profit**
- Evaluation and Managerial Results - Enhancing and cultivate staff capabilities and performance effectively**

Workplace Revitalization Action (WRA)

Micro Management

Autonomous Management
